

FAQ: 0003: Production Planning

1. Required product is not available while product planning.

- a) Check whether you have selected appropriate “Make” of which product you want to make production planning.
 - Make “Mfg.by” in Master->Marketing->Product Master and Transaction Daily ->P.P.M.C->Production Planning same.
- b) Uncheck “obsolete” in
 - Master->Marketing->Product Master (If “obsolete” is marked)
- c) Check whether master card is made or not
 - Master->Marketing->Product Master (Whether master card no. is there or not)

The screenshot shows the 'Product Master' form in the PharmaSuite application. The window title is 'PharmaSuite - [SOHAM PHARMACEUTICALS PVT.LTD., VATVA, 200809 - Product Master]'. The form is divided into several sections:

- Product Information:** Product Name *, Synonym *, Generic Name, Product Code *, Saleable / Sample * (Saleable), Department *, Mfg. By *, Mkt. By *, Packing *, Storage Bin, Excise Status (Central Excise), Tariff *, Storage Condition, COA Rule *.
- Excise and Tax Information:** Excise Notification, Excise Duty Group, Tax Group, HSN Code.
- Technical Details:** Specification *, Generic/Branded * (BRANDED), Minimum Stock, Std. Inventory Days, Q.C. Sample Size, Retain Qty., Self Life * (Months), Re-Test after each (Months), Shipper Pack, Shipper Weight (Kg), Shipper CFT.
- Other Fields:** Master Card No. (highlighted with a red arrow), Obsolete checkbox, Mfg. Lic. No. *, Product Type (DOMESTIC), L, B, H dimensions.

The 'Master Card No.' field is highlighted with a red arrow, indicating it is the focus of the FAQ. The 'Obsolete' checkbox is also visible.

- Make a master card (If Master card is not made)
 - Parameter->QA->Formula Master
- d) Check whether you have selected appropriate “Location” of which product you want to do production planning.
- Make “Location” in Parameter->QA->Formula Master and Transaction Daily ->P.P.M.C->Production Planning same.
