

## **FAQ:0007: Batch Analysis**

- 1. Batches are not showing the effective rates even after recalculating the same.**
  - a) Check in for particular batch, if there is a '\*' marked against any material, then copy inward number of it.
    - Utility->Management->Batch Analysis
  - b) Paste inward number and execute query
    - Utility->Material Inw.No.Trekking
    - Double click on 'Effective Rate'
  - c) Repeat a) and b) for all material marked as '\*'
  - d) Close Batch Analysis window & then again open it, click on 'Re-calculate' button. By doing this, it will do for particular product.
    - Utility->Management->Batch Analysis
