

FAQ: 0013: How to install fonts?

Solution: Follow as per below:

1. Unzip 'Fonts' folder
2. Copy 'Fonts' folder in D drive.
3. Go to Start->Setting->Control Panel->double click on Fonts

4. Then File->Install New Font->Select D:/Font folder (Refer screen shot)
5. Select All
6. Press OK

NOTE: Do not copy and paste fonts from unzipped 'Fonts' folder to Start->Setting->Control Panel->Fonts directly. It may disturb your operating system.
