

FAQ: 0015: How to make generic product's master?

Solution:

Follow as per below steps -

- Make a generic product master. Enter standard packing.
→Master->Marketing->Product master
- Create new generic product's master card. Enter raw material only and save it.
→Parameter->Q.A. ->Formula Master
- Create branded product's master.
→Master->Marketing->Product Master
- Create branded product's master card using help in 'Copy From' field and select product you want to copy. Here it needs to enter only packing, all raw materials will come automatically.
→Parameter->Q.A. ->Formula Master

NOTE: Here you have to create batch number separately for branded product.
