

FAQ_0045

Module: Client Installation

Issue: After PharmaSuite install in client machine, Icons are not display in any Data entry forms.

Solution: Copy Icon folder from server machine to local machine. And change registry UI_ICON path. Give first path of local machine.

E.g. UI_ICON: D:\Icons; \\Server\D\PharmSuite\Common\Icon;
\\Server\D\PharmSuite\Common\Lib;
