

FAQ_0051

Issue:

At the time of Material release / C.O.A. entry, data is not saved.

Solution:

If Q.C lead time is defined in Material Master (in days) then it will not allow to save data before that Q.C. lead days, i.e. Lead time – 14 Days then it will allow to enter data only after 14-days from the date of Material inward Date / Material issue for Q.C. testing.
