

FAQ_0062: Unable to enter Cenvat details in the GRN if Inward is two or more.

Issue:

Unable to enter Cenvat details in the GRN if Inward is two or more.

When user enters Cenvat details for one item and saves, then he can not enter the Cenvat details for other items in edit mode.

Solution:

1 – Users should enter Cenvat detail for all items (more than two items) one at a time.

2 – If he enters Cenvat details for one item (but item exist more then two times) and save. It is necessary that if he will like to enter Cenvat details for other item, he must start to enter Cenvat entries from F7, GRN No.,F8 then edit.
