

DOCUMENT: Error on clicking Terms in purchase order

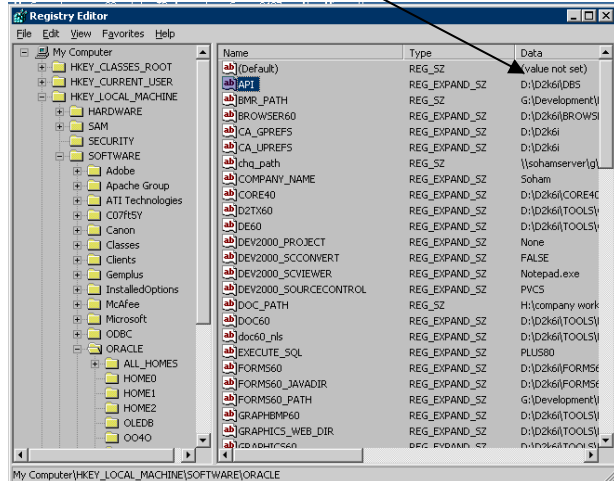

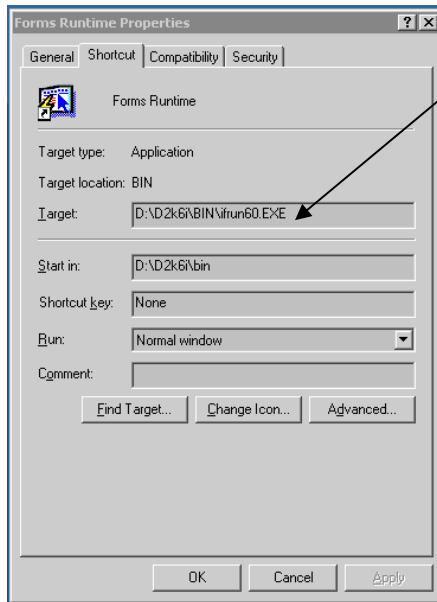

Reason: When DOC_PATH is not set in registry.

Solution:

1. Go to Start->Run->regedit
2. HKEY_LOCAL_MACHINE->SOFTWARE->ORACLE-><Please select proper HOME>
 - How to know HOME? (Refer below screen)
 1. Check D2K path:
Start->Programs->Oracle Forms 6i->Forms Runtime->right click Properties->Shortcut->Target

2, 3 -Check D2K path in
Forms Runtime
Properties & Registry
Editor

3. Check your D2K path in API of HOME. (Refer above screen)

Follow below:

- Right click there->New->String Value->DOC_PATH
- Right click there->Modify->set path of your data in value data.
Ex.: D:\PharmaSuite\Forms\purchase Order TERMS AND CONDITION.doc

4. Now check it generating one report, error is removed.
